you have never experienced before!

The most beautiful face

in the world is yours

“Este Lauder”

The first traces of years gone by are already visible on your skin ...
Are the first dark spots visible? Is your complexion not the same as before?
Don't worry, ELAXEN PLLA treatments can help improve the appearance of your skin.
Moreover, now you can get your favorite bath in an improved form.
Our company has worked diligently to release an updated ELAXEN PLLA product for more pronounced and effective results for your skin.

What is
ELAXEN PLLA for?

#Healthy **#Collagen** **#Shine**

If you want to change the quality of your skin, hide imperfections and give it a healthy appearance, use the ELAXEN PLLA complex, as an analogue of injection procedures.

The action of the ELAXEN PLLA complex allows polylactic acid to penetrate into the middle layers of the dermis without injections.

The ampoule contains a complex of essential substances necessary for your skin to activate natural processes.

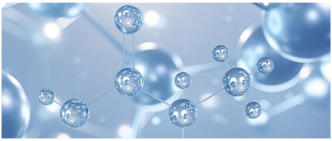
What’s **NEW?**

point 1

Added ingredients

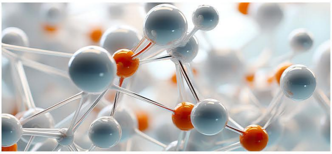


Polylactic acid

starts the process of collagen formation and contributes to the replenishment of volumes in places of skin creases.

Hyaluronic acid

acid moisturizes the skin.



Peptide

stimulate protein synthesis.

Niacinamide

accelerates skin renewal and helps reduce transepidermal moisture loss.

point 2

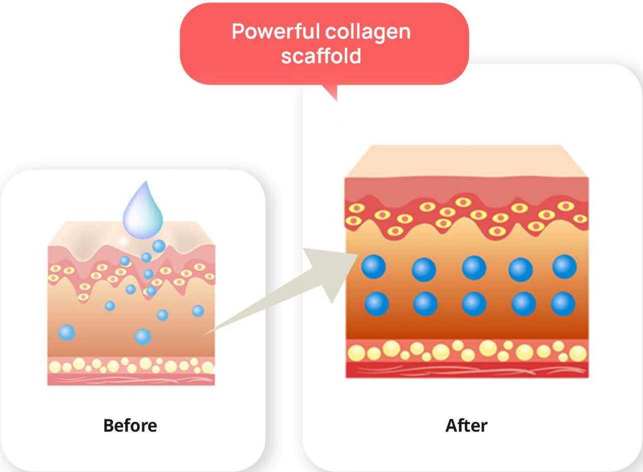
Higher quality

materials and aesthetics.

Efficiency **ELAXEN**

In the complex, all substances are aimed at improving the quality of the skin from the inside, even out the texture of the skin on the outside and strengthening it in the middle layers of the dermis.

After the course of this procedure, **the skin begins to glow and look healthy.**



- **Clearer facial features**

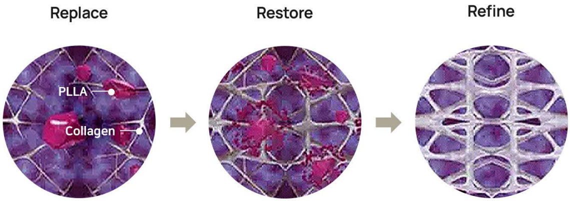
- Fine wrinkles, crow's feet
- Healthy appearance
- Collagen formation similar to collagen-based preparations

What is **PLLA?**

(Poly-L-Lactic Acid)

According to scientific research, polylactic acid creates a powerful collagen scaffold from the inside out. Absolutely biocompatible with the human body. It lends itself to biodegradation and is excreted on its own in a natural way.
Over time, the skin loses its elasticity and forms "dips". There is a deformation of the oval of the face. A grayish tint gives an unhealthy look.

RECONSTRUCTION PROCESS FOR COLLAGEN NETWORK



PLLA replaces lost collagen, corrects your imperfection. It lasts for 6 months to one year.

Biostimulating immunomodulating complex **ELAXEN PLLA comes to the rescue.**

Fast anti-aging & firming

Long-lasting hydration

Suitable for all skin types

Efficient Regeneration Role

(LASER, ACID PEELS, SURGICAL INTERVENTIONS)

AMPOULE ESSENCE

#Brightening

- *Niacinamide* • *Adenosine* • *Poly-L Lactic Acid*

PLLA works in combination with an encapsulated PLLA mist and melting matrix structure mask to penetrate high performance ingredients into the deepest layer of the skin.

By using an ampoule essence enriched with niacinamide and adenosine, this treatment works to stimulate collagen production, brighten skin tone, refine skin texture, and create a plumping effect to smooth away fine lines and wrinkles.

MIST

#Firmness

- *Poly-L Lactic Acid*
- *Leontopodium Alpinum Callus Culture Extract**

(Patent ingredients)

To help boost collagen production, reducing the appearance of fine lines and wrinkles, reverse the effects of sun damage.Helps significantly improve the firmness of the skin on the face and neck.

MELTING MASK

#Balancing

As the matrix structured mask sheet melts, the components of PLLA Ampoule penetrate the skin, enabling detailed lifting.

As the PLLA Ampoule is absorbed, it turns into a gel state and becomes super-close between the skin texture, and the active ingredient penetrates strongly.

- *It keeps the skin healthy by balancing oil and moisture.*

LOOFAH MESHED

- Wrinkles before applying the complex
- Effect after applying the complex

Removes Dead Skin

Powerful Moisturizing

Skin Lifting

Excellent Adhesion

Regeneration Process

The end result can be seen 7 weeks after the collagen scaffold has strengthened.

Wrinkles before treatment.	Immediately fill wrinkles and volume defects.	Within few days, the water in reborn is absorbed by body with a slight increase in wrinkles depth.	The 2nd phase consists of a natural soft build up of connective tissue, smoothing out wrinkles and contour defects.	After approximately 7 weeks clear improvement can be seen, larger volume defects may involve further treatment.
				Before	**1st Week**	**2nd Week**	**4th Week**	**7th Week**

Course

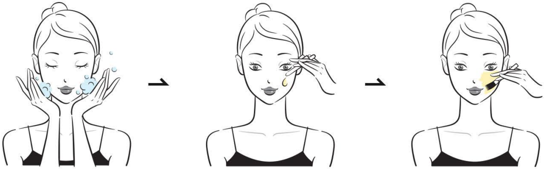
Full course of 7/9 procedures.

Patients who avoid injection procedures must undergo a minimum course of 7 procedures. Each procedure works at a specific level (layer) of the skin.

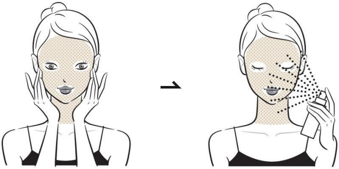
*It is recommended to use this box once a year

Application instructions

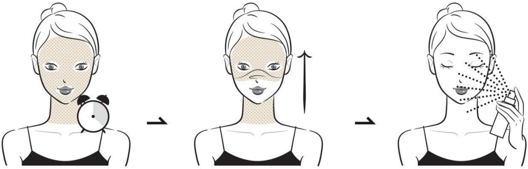
STEP 01 Cleanse your face and apply the ampoule using a brush.



STEP 02 Apply the mask with light massage movements.
Secure the mask with spray.



STEP 03 When the masks are completely dry, remove them.
After removing the mask, spray the mist.

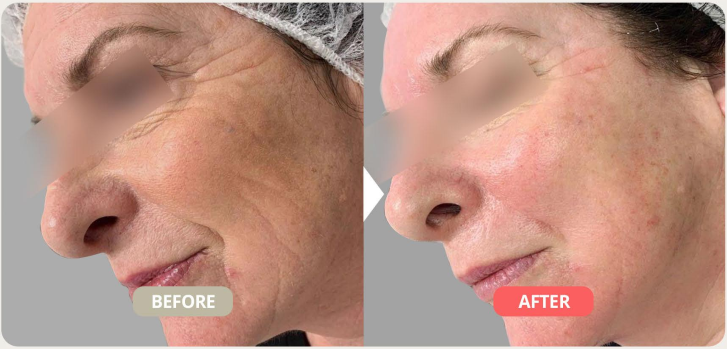


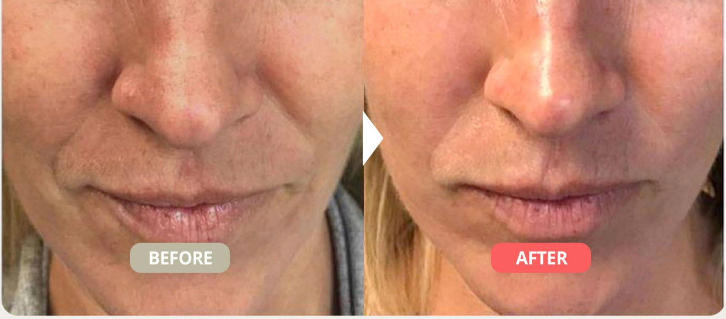
TIPS

** Recommendation: Remove the mask sheet after it is completely dried.*

** If fine pieces of the sheet stick to your face, wipe it with a cotton pad soaked with ELAXEN MIST.*

Before & After





Contraindications

- Autoimmune disease
